

Online Resources Information Sheet

McGraw-Hill Education provides a variety of online resources that can help your student be successful in their mathematics classrooms.

1 Go to www.connected.mcgraw-hill.com.

2 Log in using your child's username and password.

Student Name:

Username:

Password:

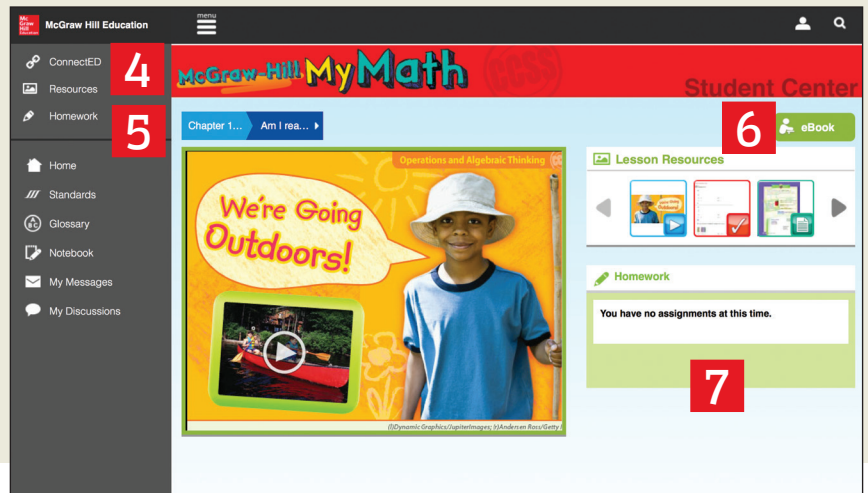

3 Click on the *McGraw-Hill My Math* book to open the Student Center.

4 Clicking on the **Resources** tab will show you all of the online resources arranged by chapter and lesson.

5 Clicking on the **Homework** tab will show you more information about assignments.

6 Clicking the **Open eBook** will open your online Student Edition.

7 This area will show you homework assignments or messages from your teacher.

Helpful Tools for Homework Success

- The speaker icon at the top of the pages provides an audio read of the lessons and Guided Practice problems.

This screenshot shows the top portion of a math page. At the top left, a speaker icon is circled in red. Below it is a line for the student's name. A large blue arrow graphic points to the right, containing the word "Perimeter" in white. To the right of the arrow, the text "Measurement and Data 3.MD.8" is visible. Below that, it says "Lesson 2" and "ESSENTIAL QUESTION: How are perimeter and area related and how are they different?". At the bottom right, there is a small image of a dog's head.

This screenshot shows a page titled "Independent Practice" for "Lesson 1 Subtract Mentally". It contains several subtraction problems:

- 3. $792 - 94 =$ _____
- 4. $885 - 52 =$ _____
- 5. $831 - 321 =$ _____
- 6. $725 - 717 =$ _____
- 7. $87 - 69 =$ _____
- 8. $745 - 239 =$ _____
- 9. $652 - 599 =$ _____
- 10. $384 - 199 =$ _____

 Below the problems, it says "Write the number sentences under their subtraction rule." and provides two examples:

- 11. When you subtract a number from itself, you get 0. (Example: $1,937 - 1,937 = 0$)
- 12. When you subtract 0 from a number, you get that number. (Example: $9,999 - 0 = 9,999$)

 At the bottom, there are more examples: $4,274 - 0 = 4,274$ and $491 - 491 = 0$. The page number "135" is at the bottom right.

- Math at Home Worksheets provide family members with information and activities to help their student better understand the chapter.
- Additional resources can be found by clicking on the icons at the bottom of the pages. They are enlarged below along with a quick explanation of each.

Animations, videos, and interactive labs are provided for many lessons to engage students and allow them to explore mathematical topics.

Personal Tutors are online virtual teachers that walk students through the steps of the lesson problems. The personal tutor includes lesson examples and narration to describe the thinking process as the problem is solved. The tutors are available for grades 3-5 and can be accessed anytime/anywhere.

Self Check Quizzes and Chapter Tests provide quick assessments with hints that students can use to get ready for in-class assessments.

eHelp assists students by giving targeted help in completing homework

The Quick Review Math Handbook provides additional examples, explanations and practice for the topics in a chapter. This icon is "active" on the first page of each chapter online.

Explore concepts with virtual manipulatives.
